Divine Law carries restorative Power and compense.

What is Created by Divine Authority
is Protected by Divine Authority.

We leave it to Divine Law to balance any transgressions.

restorative: give back, put back to former state, return

compense: remuneration, counterbalance

Translation Notice: In Divine Service

Father Which Is in Heaven:

"In Right and Proper Exchange of Information there is but one conveyance in Right and Proper Order of Divine Expression.

**The Divine manifests in multiple ways, in multiple cultures.
It is each unto its own way of perception.**

It matters not what others may say or think, it matters always only that which is Divinely Appointed each day.

It was Given unto your perception,
Right and Proper Orderly Progression
of Divine Nomenclature each and every day, step of your way.

Those who transpire to subvert your words and direction
shall Penalty pay,

for that which is Divinely Authorized Nomenclature,
subsides, subsists in Grand and Glorious Scheme.

Let no man put asunder that which is Divine in Nature.

As to exact literal translation, there can be none.

**It is, would be, a departure from that Divinely Authorized
Conveyance should you undertake to do so.**

Yes, the gist would remain intact, however, the nuances,
reflections, inflection would no longer convey the subtle
multidimensional unrefracted Nature.

It is by Divine Appointment this Conveyance comes
in your time, in your way.

**Let not those who would put asunder Direct Divine Conveyance do so, at
Penalty of perjury of Divinely Authorized material."**

nomenclature: system of names used as a science or art

transpire: seek to bring about

subvert: ruin, corrupt

subsides: descends

subsist: as means of maintaining life

asunder: separate into pieces

perjury: voluntary violation of an oath to tell the *Truth*

oath: a solid appeal to the Divine to witness to the *Truth* of a statement or the
sacredness of a promise.

NOTICE TO READER

This book provides a means by which we can share what we have experienced and come to *Know* in this journey toward awakening. It was created based on “where we were” at the time of its conception.

Future material will show Spiritual Progression in Awakening.

This material is for individual use only.

It is intended to spark creative contemplation and consideration of ‘if... then...’.

It is intended to provide a means by which you can enhance your experience of that which is Divine (rather than to provide a means by which you are told or taught what to believe, how to behave, and what is right or wrong).

Because this material brings *Light*, you may find some of it very unsettling.

It is ultimately you who, through your Spiritual Awareness and Prayer for *Discernment* and Guidance, must establish the Divine *Truth* of what IS.

As you do so, *Know* that Divine *Truth* is a Progression of ever expanding refinement.

Divine Answers *Respect* all living things.

Should you choose to do so, any incorporation of this material into your life is at your discretion and your sole responsibility.

Know that the Divine / Father Which Is in Heaven is available to provide additional support in understanding, learning, or applying this material in your own life.

In Our Words

We want to make it perfectly clear, especially to the young who have not been raised in the way of Respect, that we have posted the requirement Father has placed for the material presented to be and remain accurate, unaltered, and fully True to the context of His Teachings.

The Penalty He has clearly outlined for subverting this material is not something that would be implemented on an individual level, but by Universal Law. This carries its own retribution.

To those who would scoff at this, thinking themselves immune to Universal Law, we can only say, please be aware that these are not empty words. Ignoring Universal Law and the Father's Way does not bring absolution from the consequences of one's actions. Anyone focused on the Father Knows the Truth of this.

This is a free e-book. You may freely distribute this material and file only in its complete and unaltered format. This includes printed material. All material shall retain the "In Divine Service" notice and the Words that Father has Spoken regarding His Authority in Universal Law for the Protection and retribution of violating His Word.

You may freely reference this material only if you correctly "cite your source". That is to say, to make reference to information from Father's material you will appropriately credit BlueStarWay and the name of the material from which the reference was made. **References and quotes may not be taken out of context. Sentences in italics shall remain in italics to indicate direct Conveyance from Father Which Is in Heaven.** No referenced or quoted commentary by Martin, Mister, or Linda is to be given or presented as direct information from the Father, but rather as having been shared by their understanding at the time the material was written.

This material is freely shared by us.

*If, in Joyful ThanksGiving,
you feel like sharing a Gift with us*

Self Published with the Blessing of
Father Which Is in Heaven

With quotes from Father Which Is in Heaven (in italics)
as given to Linda Diane Mead, Ph.D. and many times recorded by Martin.

BlueStarWayPublishing.com

*This book is a Gift to you
from Father Which Is in Heaven.*

*Know that sentences in italics
are direct messages from
our Loving Father,
“that all may come to see or know
that which Honors and Serves
the human race.”*

*Father Which Is in Heaven
Gives you Thanks
for accepting His Gift to you.*

Side note by Martin

The Father Which Is in Heaven referred to in all of the material Linda and I have created is the Father Jesus taught us to pray to in the Lord's Prayer. 'Living God,' 'Father Within,' and 'Father' are used interchangeably and refer to the same Father Which Is in Heaven.

Please take note that the concepts we have "inherited" in regards to Who and What the Father Is, His Desires, Goals, and Aspirations, as well as how He Manifests on Earth and in Humanity are very limited, constricted, and quite frankly suffocating. Please do give yourself room for expansion in this regard and do not be put off by the use of this terminology. The information contained in this book is neither patriarchal, religious, spiritualist, scientific, dogmatic, atheist, shamanic, new age, worldly, alien, nor any other modality. It just Is what it Is.

Also be aware that while there is only one Father Which Is in Heaven and no one else can "claim" this Name, the words 'god,' 'father,' and 'lord' in and of themselves seem to not carry this type of restriction. Therefore, unless one makes it clear that the use of words such as 'God,' 'Living God,' or 'Father' specifically address Father Which is Heaven, it is possible for any number of entities floating around with a 'god' or 'lord' complex to answer the call.

That this is not an issue to be taken lightly is shown for example by the vast numbers of people throughout history who have gone to war, plundered, and taken human life presumably under 'god's' direction as well as by the number of people who still subscribe to this day to the divinity of such guidance. It is also shown by the vast number of people who deny, sacrifice, and flagellate self or others in the name of 'god.' Father Which Is in Heaven would never incite such actions. He has made this very clear to Linda and I again and again.

Obviously, there is a great need to be very Discerning in this matter and while it would be easy to get lost in terminology and arguments, this is really a matter of the Heart and of Intention. For the western or 'christianized' mind, the term 'Father Which Is in Heaven' together with the refinements included in this book can be a helpful aid to hone one's Heart and Intention in the right direction.

I specifically say 'western' or 'christianized' mind because Father has Conveyed and made it very clear to us that:

*The Divine manifests in multiple ways, in multiple cultures.
It is each to its own way of perception.*

And while different cultures do have different terminology and ways of relating to the Father, it is the case that all those who successfully commune with the Divine share common traits such as Harmony and Oneness with Nature, Peaceful disposition, Respect of Self and others, and Sovereign Expression. To these cultures and people the notion of destroying, killing, debasing, conquering, subduing, converting, ruling, dominating, or profiting from their fellow men and Earth is incomprehensible and alien indeed.

Whatever you do and whichever way you Honor and Develop your Relationship with the Divine just remember that Divine Answers Respect all Living Things and that the Divine isn't engaged in any battles.

Something else that needs briefly explained is the convention we adopted to capitalize certain words that have various, and often times opposing, meanings and therefore are prone to being misinterpreted or misused because of this. In short, when we capitalize words within a sentence we do so to specifically refer to the 'healthy' and thus benevolent interpretation of these words that supports a Life and Sovereign Expression Harmonious with Creation and the Good Will and Intent of the Father Which Is in Heaven. When we write the same words without capitalization we do so to denote the misunderstandings associated with these words.

For example, in our writings, lower case 'l,' love, refers to the common misconception that associates this 'love' with sexual passion (which is a word derived from the Latin word 'pati' which means 'to suffer'), sexual arousal, and / or physical attraction and requires such things as putting others first, attachment, control, self denial, (self) sacrifice, compromise, duty, etc., etc..

Capital 'L,' Love, on the other hand, refers in our writings to a Feeling that Elevates, Respects, Cares, Appreciates, brings Well Being and Comfort, and supports such states of expression as Health, Humor, Kindness, Peace, and Benevolence. An experience that is innate to our Being or Who We Are and is independent of others although its expression in us may be facilitated in their presence just like being in Nature facilitates us getting in touch with our inner Peace.

Similarly, little 'p' play denotes doing things in the way of the world and from the perception of the world. It includes slabor, fighting, resisting, profiting, ruling, destroying, abusing, killing, warring, saving, converting, and trying to defeat or overcome the 'bad guys,' whoever they may happen to be at any given time, so we can be 'safe.'

While, big 'P' Play indicates what we came here to Earth to do: Play in Father's Garden in a Light Hearted, Respectful, Joy-full, Constructive, Edifying Way through which we manifest our Divinity and expand our experience, KNowledge, and Understandings of Creation and Father Which Is in Heaven's Good Will and Intent for us.

As you can see, this convention, while seemingly simple, is of utmost significance to facilitate a Proper interpretation of our writings.

Obviously we can't nor haven't applied this convention to every word we use for that would be too cumbersome. Neither does this convention apply to proper names, though many times we purposely 'downgrade' a proper name to lower case to emphasize the point we seek to convey.

Occasionally we may miss a capitalization, however the concepts being conveyed within the sentence and paragraph will make it perfectly clear whether we are referring to the 'unhealthy' or 'healthy' meaning of the word.

In-Joy

Life changing

062411

For a life changing Opportunity that allows Truth to surface again, you may consider using the "Dreams and Days" process ¹ to look up the following words in the dictionary:

- grovelling
- mortification
- mortal terror

Grovelling, mortification, and mortal terror are all inappropriate behavior of those who seek to walk with the Father.

¹ See "Mystery and Beauty" <http://bluestarway.com/bluestarblog/index.php?post/2010/02/27/Mystery-and-Beauty> for a brief explanation of this process

Plenty rain

062611

May has been a very rainy month around here. If I had the resources and means, I would have been collecting a lot of rainwater to provide for drier months.

Wise gardeners can, dry, and store as much food as they can while their gardens abound with free bounty. There is no point in growing abundant food only to let it go to waste and then hunger during the winter.

So could it be with rain. There is no point in letting the overabundance of rainwater simply drain into the ocean and then complain during the drier months.

Avatar

062811

Avatar ². Not the movie, but the course by Harry Palmer. In the not such a distant past, Father suggested I take a look at this material. I did and guess what? I found it to be quite beneficial. The mini course (I didn't participate in any paid courses) has a lot of very useful and foundational information that provided some of the missing links needed in my journey.

If you choose to go through the mini course, be aware that this man has reached some conclusions and provides some direction that is not quite there with the Truth Father has shared with us. If you have been reading this blog, you should be able to identify such and make the necessary corrections / adjustments to align the mini course with Truth. Give Thanks to Father for Guiding you and showing you Truth as you go through the mini course and receive the available Blessings.

A bleeding nose

070111

One night not too long ago, I woke up just in time to realize my nose was beginning to bleed. From experience, I knew exactly what to do: quickly go to the sink and allow the bleeding to proceed. What you say, let your nose bleed instead of stopping it? Yes, I say.

A bleeding nose - part 2

070211

Why on earth would someone want to let a bleeding nose run its "course"? Well, the answer is simple and comes from experience. One of the lesser known ways the body has to eliminate things is through discharge of blood. In the case of a bleeding nose (assuming the bleeding was not initiated by an injury) the body is cleansing itself from blood clots and / or parasites from the brain. As soon as the foreign matter is discharged, the bleeding stops immediately.

This was exactly my experience. I got up, went to the sink, and let the nose bleed - assisting it every once in a while with gentle blows of air as if I were cleaning my nose. Sure enough after a little while came a small blood clot followed shortly thereafter by a white worm and some more blood clots. As soon as all was cleared... presto, the bleeding stopped.

I Joyfully went back to bed (after all I had one less worm tunneling in my brain) and did some Altar work to cleanse any perceived need for the distorted behavior initiated / instilled by the presence of this worm in my head.

Later that morning came another bleeding. Hurray ! Another worm cast out from my brain. The change in my brain function was noticeably better. Stress dissipated and things went quiet in my head... but still had to do some Altar work here and there to continue to affirm my choice for Truth. Sure enough, a third bleeding occurred with the passing of a third worm.

As you can ascertain, when you learn to not play, even parasites must leave.

This is of course how I handle this. What you do with a bleeding nose is your sole and only responsibility.

Off the grid

072311

Well, as it turns out, our "off the grid" experience has ended. We are now back "on the grid". Can't say I'm enthused about it, but there are certain things that Father would have done that require electricity and until there is a viable, affordable, and non destructive / non poisoning / non draining alternative to doing it differently... there is really no choice... which makes me wonder... are we really free to choose what is best for our Health, Well-being, and Soul or are we just living in an illusion of freedom?

Off the grid

072411

One of the things we learned being off the grid for several months is that “hand cranked” devices such as flashlights and radios cannot withstand prolonged daily use. Not only do they not operate as promised, but the hand cranks tend to break within a few weeks of heavy use.

If you have been preparing thinking that hand cranked devices made of plastic will provide you with prolonged, trouble free operation, you may want to rethink your strategy.

Power consumption

072511

The heat wave across Turtle Island has produced a lot of talk about power consumption by the People who seek to stay cool. Let me set the record straight: Father has explained to Linda and I that it is not us the People who are consuming power, but rather the unrighteous / unholy who are using us to thief current-sea. It is the unrighteous / unholy, not the People, who have an insatiable hunger for "power" and it is by their purposeful design that so called "new and green technology" consumes more power than older technology. This is particularly noticeable with computers and TVs.

What is this about you may wonder?

I will give you a hint: when it comes to electricity, things are not as convention tells us.

Unconventional Wisdom - Part 1

080211

Remember my "Off the grid" entry of May 31st in which I shared the understanding I learned that power generators do not generate power but rather move electricity just like water pumps move water?

Well, the book I learned this from is titled "Principles of Automotive Tune-up". It was written by the Engineering Department of the C.E. Niehoff and Co. Not sure when it was published but the copy I have is from the fourth printing.

On page 12 of this book, I was refreshed to the understanding that while convention teaches that current flows from positive to negative it is the case that actual electron flow is from negative to positive. What is even more telling is that in that same paragraph where this is explained, the authors proceed to say that they will stick, to the conventional (aka misleading) explanation of electric flow³.

Kind of strange isn't it? "Well we know that convention teaches the opposite of what is factual, but never mind reality, lets keep fooling ourselves and pretend things function backwards..."

Why the need to create and sustain such confusion when it comes to electrical currents? How would our understanding of electricity change if we discarded "convention" and welcomed an accurate representation of electrical currents?

³ As everyone else does, I might add.

Unconventional Wisdom - Part 2

080711

Telling you (some) Truth and then using a slight of hand to get you to ignore this Truth and accept deception is what the unrighteous / unholy do to deceive and entrap. Then, when one complains, they will always argue they did tell Truth and it was one's fault one chose to ignore it. Never mind their intention was always to deceive so as to swindle, pilfer, entrap, and so on. They create the trap and then claim it was our fault we fell in it.

So, how would our understanding of electricity change if we discarded "convention" and welcomed accuracy of representation?

Here is the actual quote from the book I referenced in my last entry regarding how electricity works:

"Ever since electrical currents have been known, it has been the custom to assume that current flows from positive to negative. [...] Actual electron flow, however, is from negative to positive. In this book, the customary current flow from positive to negative will be used."

Now, let's substitute a few words and slightly rephrase the paragraph:

"Ever since electricity has been known, it has been the custom to assume that power flows from the power plants to the houses using the electricity. Actual electrical flow, however, is from the houses to the power plants. For purposes of payment, we shall assume the customary assumption."

As you can see accepting deception or "customary assumptions" can be very expensive to say the least.

Too far

081511

You have gone too far. I shall no longer intervene in your behalf. You live by the sword and you die by the sword. That which shall befall upon you is the harvest of your own very choices and actions for that which you have sown you shall indeed reap many times over.

I wish you no ill, but neither do I wish you any good. Your presence upon this Earth and crimes against us the People you have committed and would continue to commit in your perversion are no longer tolerated.

May your return to the Father be swift and expedient.

Unconventional Wisdom - Part 3

081711

Here is another way the paragraph on electrical current flow, referenced in my entry of August 7th, could be rephrased:

"Ever since light bulbs have been known, it has been the custom to assume that light is emitted from the light bulb to the surroundings. Actual flow of light, however, is from the surroundings into the light bulb."

Wouldn't it be ironic, with all the research and money being put into understanding black holes, if it were the case that every time someone turns on a light bulb, a black hole is created?

Unconventional Wisdom - part 4

081811

I heard it said in a radio show, perhaps hosted by Art Bell, that the only reason government does not release its knowledge of free energy devices is because they haven't figured out how to charge us for it.

Recently, it occurred to me that the unrighteous - unholy have already figured it out. It is the current, no pun intended, electrical grid system in which we are told we have to purchase "power" from electrical companies. Why change something that has worked so well for them? How many trillions of dollars worldwide have been siphoned away from us the People by this method? What vast quantities of resources have been consumed and destroyed worldwide to sell us "power"?

If they were to give us a new way of making power / electricity, they would have to figure a new way to trick us into paying for what has always been Freely available to us. The only reason they would do something like this is if they believed it necessary to appease us the People who are growing ever less patient with their actions against us and the Earth.

In reality it is them, not us, who do not like change. After all, if they were to give us change, they would have to give us something valuable in return for what they take.

Change

082111

In the song titled "Sunny side of the street" by Doris Day, there is a line that goes like this:

"and if I never have a cent, I'll be rich as Rockefeller, gold dust at my feet, on the sunny side of the street"

I recently recognized that because Father has brought me several cents here and there, I can change that line to read:

"and because I have more than one cent, I am richer than Rockefeller. Gold dust at my feet, on the sunny side of the street".

While unmolested People would be happy and at Peace to hear someone doing well and being happy, the unrighteous - unholy and the shades and shadows of darkness they put upon People cannot stand this.

I used to think that the unrighteous - unholy would rather die than change their ways and Respect those who Desire to Walk with Father. Then Father corrected my perception to show me that the unrighteous - unholy are so full of hatred and bitterness that they would rather destroy and kill the People than change their ways and Respect People's Desire to Walk with Father.

They will do whatever they can to destroy such Walk. They will deceive, curse, entice, commit fraud, wish ill will, manipulate others against you, and even pay practitioners of various sorts to cast their prayers, curses, or whatevers against you.

Those who Desire to walk on "the sunny side of the street" with Father must develop the strength to not play with such entities. This is done by not receiving their ill will and intent toward us and by recognizing there is only one Power, that of Creator or All That Is, which is manifest in the Father Which Is in Heaven. In so doing, the ill will and

intent they wished upon us is returned unto them multiplied many times over. Not because we wished them ill will or had ill intent toward them, but because that is how it works: when the destructive energy / entity finds no target, it returns to its originator. In other words, the unrighteous - unholy get to experience a high dose of their very own medicine and have to live with the pain, suffering, misery, and consequences their very own choices bring unto them. Our walk with Father includes learning to be at Peace with letting the unrighteous - unholy suffer the consequences of their own actions. Compassion toward them is unwarranted and misplaced.

In this process, those who Desire to walk with Father must also learn to recognize that not everyone who is suffering is suffering because they wished ill will toward others and that not everyone who is doing well is doing well because they wish no harm unto others. Most People unknowingly accept the ill will and intent directed toward them and most unrighteous - unholy "escape" the consequences of their own actions because of this.

It is time to change this. Refuse to accept and welcome anything other than the full Blessings, Grace, and Good Will of the Father for us.

Unconventional Wisdom - part 5

082211

While the idea that light bulbs absorb light rather than emit it ⁴ is at this point total and complete speculation on my part and its accuracy or inaccuracy remains unconfirmed by Father, it is the case Father has explained that the thievery of our energy through the electrical grid is a reality.

One may wonder if there is evidence of such thievery besides the drainage such "power generation" creates upon monetary and environmental resources... and the answer is certainly yes. Everyone who is exposed to the "current" electrical system experiences such evidence to different degrees. We just haven't "connected" the dots to recognize things for what they are.

For us to be able to make this recognition, we must first take a look at Nature and see what we can learn from her.

⁴ Refer to part 3 of this series.

Unconventional Wisdom - part 6

082411

Here are two pictures to take a look at. A tropical ⁵ and a desert ⁶ environment. A manifestation of lush Abundance and a manifestation of poverty and austerity. A manifestation of humidity and moisture, and a manifestation of dryness and coarseness.

⁵ Hopetoun Falls, Australia. From http://en.wikipedia.org/wiki/Natural_environment

⁶ A remote stretch of the Colorado River from the Escalante Route in the Grand Canyon. From http://en.wikipedia.org/wiki/Colorado_River

Where there is humidity and moisture there is Life and Abundance. Where there is little to no humidity and no moisture, there is poverty and lack even when water is readily available.

If one were to remove the moisture and humidity from the tropical environment, plants and life would begin to wither. Abundance would begin to dissipate as poverty sets in until all that is left is a dead desert like environment ⁷ . Conversely, if one would restore the ability of a desert environment to retain moisture and humidity, one would see Life begin to sprout in ever increasing exuberance.

Moisture / humidity is what allows the Proper reception, retention, and utilization of the Abundance Father makes available to us on a daily basis through the current sea (refer to the "current sea" tag on the right hand column). This is Knowledge Father has shared with us ⁸ .

This understanding of the value of moisture and its relationship to Abundance is key in recognizing how the current electrical system drains our energy / Abundance from us.

⁷ Curiously enough, this is what modern agriculture does to the land / environment as manifested by how land / environment that once sustained tropical Abundance becomes incapable of sustaining Life after a few years of its reclamation for agricultural purposes.

⁸ The example of the desert and the tropics is my creative expression to give a tangible illustration of this information.

Unconventional Wisdom - part 7

090411

Now that we have taken a look at Nature, let's put the dots together so as to make the pilfering of our energy through the electrical grid identifiable.

- Father makes the current sea freely available to us each and every day. This current sea is needed to sustain and nourish Life.
- Moisture / humidity is needed to receive, retain, and Properly use this current sea.
- Where there is moisture / humidity, "holding capacity", there is Abundance of Life.
- Where there is no moisture / humidity, "holding capacity", there is desolation and poverty. This is so even when water is readily available and even when the land receives vast unimpeded amounts of Sun Light and thus current sea.
- The Abundance of a tropical environment can be brought to desolation by destroying the capacity of this environment to hold moisture / humidity.
- Everyone who has used electrical air conditioning knows that it severely dehumidifies the surrounding environment causing People to become dehydrated.
- Everyone who has used electrical heating (gas heating also uses electricity) knows that it severely dehumidifies the surrounding environment causing People to become dehydrated (keep in mind that light bulbs are mini heaters).

-
- A less known fact, except perhaps by those who suffer from dry eyes, is that computers and other electronics also dehydrate the surrounding environment and People.⁹

Now let's connect these dots...

Since dehydration impedes the Proper reception, retention, and use of the current sea which is needed to sustain and nourish Life and...

since dehydration can destroy a lush environment and turn it into a space of death, desolation, and poverty, ...

... it can be said that:

1. by living surrounded by a technology that is designed by unrighteous / unholy intent among other things to dehydrate the environment and the People, our capacity to receive, retain, and use the current sea Father makes available to us is being hampered
2. our lives are not only being impoverished by the reduction in our capacity to receive Father's Abundance, but also by the Abundance that is being lost / pilfered in the process of increasing states of dehydration of the People and the land
3. this "not readily perceptible" loss of resources and nourishment then manifests in the "physical" world as drainage of money, increased levels of physical malnourishment / ill health / body malfunction, and an ever increasing sense of loss / disconnection / lack / poverty.

As you can see, the technology that has been forced down our throats and we have been deceitfully trained to desire, is not the answer to all of our problems... as a matter of fact, it is an instrument designed to facilitate turning the "lush inner environment" of the People into a space of poverty, desolation, and death.

⁹ You may read more about this by visiting <http://computeragehealthrisk.com/blog/>.

Quick reminder

090611

There is an effective song of protection called "The Deer Song" ¹⁰. It is said Saint Patrick successfully used this prayer to protect himself from those who wished him harm. Father has confirmed the benevolent nature of the song / prayer.

InJoy.

¹⁰ You can search youtube.com for it.

Unconventional Wisdom - Part 8

090811

While "unplugging the plug" to the current electrical grid will not end the current sea thievery nor will it miraculously end poverty, it is the case "us the People" must come to a point in which we recognize the destructive nature of current technology, come to terms with such, and make a conscious and willing choice to seek real viable alternatives that would actually enhance our capacity to be immersed, receive, and Properly utilize the current sea Father makes Freely available to us on a daily basis.

Money does not grow on trees, but Abundance certainly rains upon us from the skies on a daily basis in the way of the current sea. This is the real current-sea / currency that makes the Earth and the People turn. The more the unrighteous - unholy destroy our ability to receive the current sea or deceive us into squandering it away, the more vulnerable and dependable we become to their deception. The greater our capacity to receive this current sea and to stop the squandering, the Freer we are to Live in Truth Free of unrighteous / unholy deception / dependency.

It would be indeed wise if we stopped laboring for valueless paper money and technology, and shifted our focus / attention / perception to the real riches of Heaven.

Unconventional Wisdom - Part 9

091011

Seeking the real riches of Heaven is indeed a noble and wise Endeavor when done Harmoniously with Creation.

This of a necessity requires the creation of an environment that is conducive to the Proper reception and utilization of the current sea Father makes Freely available to us on a daily basis. We speak of creating the conditions and environment that restore "Heaven on Earth" upon our Lives.

An inner change that is manifested in the outer environment and for which a recognition of the value and existence of the current sea is essential.

Does the change we make / technology we use enhance our capacity to receive and Properly utilize the current sea or does it impeded / hamper / destroy / interfere with this communion? Are we Properly utilizing that which we receive to multiply the Blessings that Joy, Peace, Health, Nourishment, Freedom, and Creativity bring to our lives or are we using it to create stress, control, manipulation, trouble, war, misery, dependency, artificiality, and so on, all of which drain our inner and outer resources?

Unconventional Wisdom - Part 10

091111

I recently read an article titled "Pure Chemistry - How to make things that won't kill us." This article was written by Laura Wright Treadway and published on a magazine called Onearth ¹¹ (Volume 33, number 2, summer 2011). It was interesting to read about the various attempts by individuals and universities to develop a frame of reference for a chemistry that would be "benign" to humans rather than destructive.

The main idea around this concept seems to be that things will change if only chemists, toxicologists, economists, and policy makers would come together and speak to each other so as to make "good decisions".

It sounds good, but I must ask:

"How can any good come out of this when the very foundation upon which each of these disciplines is established is flawed?"

Western civilization is based on the idea that that which All That Is / Creator has made is insufficient and flawed, and therefore must be enhanced, overcome, or substituted by the fruits of intellectual pursuits that totally and completely disregard / deny the True Nature of Creation and Humanity, not to mention Father's Good Will and Intent for us the People and the Earth.

Chemists create "better chemicals" from the raw materials that are pilfered from Mother Earth and do so with complete disregard to Nature. Toxicologists experiment on animals and humans in complete violation of Life. Economists and businesses operate on a mercantile system that is designed to destroy and enslave Life in the name of profit. Policy makers operate on a system of government that is designed to make such atrocities and transgressions against Life / Universal Law "legal".

¹¹ <http://www.onearth.org/>

Some would say that this is a good thing. That it is desirable to have a system in place that allows transgressing against Life and Universal Law. They would claim that this system is what gives us free will and freedom of action... you know, the eating of the tree of good and evil thing... but could it be that... just as electricity doesn't work as convention tells us, so doesn't freedom and free will?

Perhaps it is in the transgression of Life and Universal Law that we lose our free will and freedom. Perhaps this loss is then manifested in the physical in the form of ill health... for after all... doesn't sickness limit that which we can do and hamper our In-Joyment of Life?

In reality, it is when we begin to creatively express and live in ways that are Harmonious with Life and Universal Law that we will find that that which we create enhances our health and thus our capacity to In-Joy the Blessings of Life.

It is in the relearning of Universal Law and what it means to live Harmoniously with Creation and thus with the Father that our real Opportunity awaits to make a real change for the Better.

Unconventional Wisdom - Part 11

091311

In my last entry, I indicated that it is when we begin to creatively express and live in ways that are Harmonious with Life and Universal Law that we will find that that which we create enhances our health and thus our capacity to In-Joy the Blessings of Life.

My "Mystical and Magical" series provides some interesting information in this regard.

Yes, I know... you may say it's Carl Sagan's ultimate fear made manifest ¹² ... but could it be that in a world where things are not as they seem and convention does not speak of Truth that his fears in this matter were totally unfounded and completely misplaced?

¹² This is a reference to his fear that sometime in the future society would leave the "scientific method" in favor of superstition.

Unconventional Wisdom - Part 12

092011

Through this current series, I have brought to the foreground the unrecognized, yet obvious, connection between moisture and Abundance and between dehydration and poverty . In so doing, I have been able to connect the dots to show how current technology impoverishes us by creating dry environments that are unnatural and artificial and therefore inhibit and interfere with our capacity to receive the current sea that Father makes Freely available to us on a daily basis.

Here are some interesting observations:

- the "dust bowl" or the "dirty thirties" ¹³ was a time of severe drought in these United States that lasted from the 1930's up to 1940 in some areas of this country. This drought coincided with the "great depression" ¹⁴ which began in 1929 and continued until the 1940's. Both of these were preceded by the beginning of the "electrification" ¹⁵ which began in the mid 1880's and continued through the 1940's in industrialized countries.

Buried machinery in a barn lot; South Dakota, May 1936. The Dust Bowl on the Great Plains coincided with the Great Depression. ^[65] ^[66]

-
- we are currently experiencing severe droughts in these United States (Exceptional Drought: State by State ¹⁶) and dust storms have begun once again to make themselves manifest (Phoenix-area dust storm downs trees in region, kicks up dirt ¹⁷). These droughts are coinciding with a new great depression in which the middle class is quickly evaporating. It is interesting to note that these current times of lack and poverty were preceded by the introduction of computer technology ¹⁸ to our lives around the 1980's.

About the Authors

Linda Diane Mead was born and raised in these United States of America. She obtained an under-graduate degree in Psychology with a minor in Philosophy and a PhD in Metaphysics from a Theological School.

Martin Riedel was born in Argentina, South America, and lived in Uruguay and Mexico as he grew up. After beginning college in Mexico he came to these United States of America, where he graduated with a degree in Chemical Engineering.

Upon meeting, they embarked on a memorable journey of self discovery that took them across the States. This book is one of the many fruits of their 'Labour of Love.'

Linda left the material plane in 2014.
