Father Which Is in Heaven:

"In Right and Proper Exchange of Information there is but one conveyance in Right and Proper Order of Divine Expression.

**The Divine manifests in multiple ways, in multiple cultures.
It is each unto its own way of perception.**

It matters not what others may say or think, it matters always only that which is Divinely Appointed each day.

It was Given unto your perception,
Right and Proper Orderly Progression
of Divine Nomenclature each and every day, step of your way.
Those who transpire to subvert your words and direction
shall Penalty pay,

for that which is Divinely Authorized Nomenclature,

Let no man put asunder that which is Divine in Nature.

**As to exact literal translation, there can be none.
It is, would be, a departure from that Divinely Authorized
Conveyance should you undertake to do so.**

Yes, the gist would remain intact, however, the nuances,
reflections, inflection would no longer convey the subtle
multidimensional unrefracted Nature.

It is by Divine Appointment this Conveyance comes
in your time, in your way.

**Let not those who would put asunder Direct Divine Conveyance do so, at
Penalty of perjury of Divinely Authorized material."**

nomenclature: system of names used as a science or art

transpire: seek to bring about

subvert: ruin, corrupt

subsides: descends

subsist: as means of maintaining life

asunder: separate into pieces

perjury: voluntary violation of an oath to tell the *Truth*

oath: a solid appeal to the Divine to witness to the *Truth* of a statement or the
sacredness of a promise.

Side note by Martin

The Father Which Is in Heaven referred to in all of the material Linda and I have created is the Father Jesus taught us to pray to in the Lord's Prayer. 'Living God,' 'Father Within,' and 'Father' are used interchangeably and refer to the same Father Which Is in Heaven.

Please take note that the concepts we have "inherited" in regards to Who and What the Father Is, His Desires, Goals, and Aspirations, as well as how He Manifests on Earth and in Humanity are very limited, constricted, and quite frankly suffocating. Please do give yourself room for expansion in this regard and do not be put off by the use of this terminology. The information contained in this book is neither patriarchal, religious, spiritualist, scientific, dogmatic, atheist, shamanic, new age, worldly, alien, nor any other modality. It just Is what it Is.

Also be aware that while there is only one Father Which Is in Heaven and no one else can "claim" this Name, the words 'god,' 'father,' and 'lord' in and of themselves seem to not carry this type of restriction. Therefore, unless one makes it clear that the use of words such as 'God', 'Living God,' or 'Father' specifically address Father Which is Heaven, it is possible for any number of entities floating around with a 'god' or 'lord' complex to answer the call.

That this is not an issue to be taken lightly is shown for example by the vast numbers of people throughout history who have gone to war, plundered, and taken human life presumably under 'god's' direction as well as by the number of people who still subscribe to this day to the divinity of such guidance. It is also shown by the vast number of people who deny, sacrifice, and flagellate self or others in the name of 'god.' Father Which Is in Heaven would never incite such actions. He has made this very clear to Linda and I again and again.

Obviously, there is a great need to be very Discerning in this matter and while it would be easy to get lost in terminology and arguments, this is really a matter of the Heart and of Intention. For the western or 'christianized' mind, the term 'Father Which Is in Heaven' together with the refinements included in this book can be a helpful aid to hone one's Heart and Intention in the right direction.

I specifically say 'western' or 'christianized' mind because Father has Conveyed and made it very clear to us that:

*The Divine manifests in multiple ways, in multiple cultures.
It is each to its own way of perception.*

And while different cultures do have different terminology and ways of relating to the Father, it is the case that all those who successfully commune with the Divine share common traits such as Harmony and Oneness with Nature, Peaceful disposition, Respect of Self and others, and Sovereign Expression. To these cultures and people the notion of destroying, killing, debasing, conquering, subduing, converting, ruling, dominating, or profiting from their fellow men and Earth is incomprehensible and alien indeed.

Whatever you do and whichever way you Honor and Develop your Relationship with the Divine just remember that Divine Answers Respect all Living Things and that the Divine isn't engaged in any battles.

Something else that needs briefly explained is the convention we adopted to capitalize certain words that have various, and often times opposing, meanings and therefore are prone to being misinterpreted or misused because of this. In short, when we capitalize words within a sentence we do so to specifically refer to the 'healthy' and thus benevolent interpretation of these words that supports a Life and Sovereign Expression Harmonious with Creation and the Good Will and Intent of the Father Which Is in Heaven. When we write the same words without capitalization we do so to denote the misunderstandings associated with these words.

For example, in our writings, lower case 'l,' love, refers to the common misconception that associates this 'love' with sexual passion (which is a word derived from the Latin word 'pati' which means 'to suffer'), sexual arousal, and / or physical attraction and requires such things as putting others first, attachment, control, self denial, (self) sacrifice, compromise, duty, etc., etc..

Capital 'L,' Love, on the other hand, refers in our writings to a Feeling that Elevates, Respects, Cares, Appreciates, brings Well Being and Comfort, and supports such states of expression as Health, Humor, Kindness, Peace, and Benevolence. An experience that is innate to our Being or Who We Are and is independent of others although its expression in us may be facilitated in their presence just like being in Nature facilitates us getting in touch with our inner Peace.

Similarly, little 'p' play denotes doing things in the way of the world and from the perception of the world. It includes slabor, fighting, resisting, profiting, ruling, destroying, abusing, killing, warring, saving, converting, and trying to defeat or overcome the 'bad guys,' whoever they may happen to be at any given time, so we can be 'safe.'

While, big 'P' Play indicates what we came here to Earth to do: Play in Father's Garden in a Light Hearted, Respectful, Joy-full, Constructive, Edifying Way through which we manifest our Divinity and expand our experience, KNowledge, and Understandings of Creation and Father Which Is in Heaven's Good Will and Intent for us.

As you can see, this convention, while seemingly simple, is of utmost significance to facilitate a Proper interpretation of our writings.

Obviously we can't nor haven't applied this convention to every word we use for that would be too cumbersome. Neither does this convention apply to proper names, though many times we purposely 'downgrade' a proper name to lower case to emphasize the point we seek to convey.

Occasionally we may miss a capitalization, however the concepts being conveyed within the sentence and paragraph will make it perfectly clear whether we are referring to the 'unhealthy' or 'healthy' meaning of the word.

I would like to begin this new season by quoting a very creative woman whose first entry in her RoseNoel ¹ blog eloquently conveys that which I would like to say this day:

"Linda:

And So It Begins . . . (classic not creative) ²

This blog is about creativity. Creativity is not something to be scheduled. It may come at any "time", remaining briefly or lingering. The most important aspect is to finish the creation in the energy available for that event of creativity.

This is to say, the blog will ebb and flow as it follows creative expression."

As to moisture - part 1

011112

In writing the "Unconventional Series" and making a correlation between moisture, current sea, and Abundance, I have been very aware of the negative connotation we consciously or unconsciously tend to have regarding humidity.

For example, high humidity or moisture is readily associated with growth of mold and fungus in gardens as well as in houses or dark enclosures such as basements. High humidity also makes summer heat or winter cold significantly less bearable, thus giving rise to the notion that dryer environments are preferable to humid ones.

It is important to understand that the reason high humidity seems to be detrimental to life is simply a matter of perception.

I would suggest that the reason it appears humidity makes weather extremes less bearable is because humidity enhances our senses and interaction with the environment, thus making it easier to recognize environmental imbalances. In contradistinction to this, dryness numbs our senses giving us a false perception of the environment. Said differently, it is not the high humidity that is the problem, but rather the temperature extremes (and lack of humidity) that are.

Similarly, it is not high humidity that causes mold and fungus. If it were so, jungles would simply be smothered by them. Instead, I would suggest it is an imbalance in the natural environment that facilitates such growth. This imbalance is caused, from what I can discern at this time, by factors such as:

- the pilfering of the current sea which diminishes the nourishment and Abundance received upon the Earth weakening both People and Earth.
- the consumption / destruction of Earth's resources through mining and conventional agriculture which remove precious metals, minerals, gemstones,

and other needed nourishment from the soil, making life upon Earth more frail and vulnerable to disease.

- the obsessive compulsion of People to block themselves and their living quarters from beneficial SunLight, especially UV light.
- the squandering of resources to support destructive activities and lifestyles that poison and genetically alter life upon Earth.
- the blocking of Sunlight through chemtrails which have been reported to contain among other things, mold, fungus, and disease.

As to moisture - part 2

011212

In broad terms, it can be said then that the reason it appears high humidity is a problem is because the Earth and People are out of balance. This false perception of humidity will fade into nothingness once balance is restored. After all, warm humid days with a nice cool breeze that refreshes the senses are indeed very In-Joyable.

This restoration to balance is to be accomplished individually by both Earth and People and will be facilitated by the progression of the Sun into his new orbit.

What does the process of restoration look like for the Earth? Earth-shaking... no pun intended. For example, Father has explained that the Earth uses volcanoes to replenish the mineral content of surface and atmosphere as necessary. This volcanic activity will go hand in hand with other changes needed to correct the Earth's tilt, rotational axis, and alignment with the Sun.⁴

In Light of this, it is possible to recognize why People who Desire to restore themselves to balance must, of a necessity, also allow and prepare for the Earth changes that are upon the horizon.

⁴ This activity is not to be confused with artificially generated earth activity.

As to electricity

011512

In this "Unconventional Wisdom" series, I have made reference to free energy several times. So how would we go about receiving such energy?

Perhaps, if we were to look at how radios and cars work we would discern but one way to obtain free energy.

In generic terms, a radio receiver allows us to hear a radio station by tuning into the signal the radio station transmits. Radio stations broadcast this signal by means of energy or power. That is to say, they use energy as a carrier of the radio signal. The greater the power or energy used, the stronger the signal. It is not uncommon to hear radio stations boast regarding the thousands of Watts of energy they use to transmit their signals. Well, why not, rather than focusing on the radio signal, focus on the energy transmission and build a receiver that will tune to this available energy?

But why limit ourselves to the strength of a radio transmission? Why not simply tune to the energy emitted by the Sun or even the Earth? All that is needed for this is an antenna and a receiver. It is that simple... and surprisingly enough, we already have the infrastructure that would make this possible in place: radio antennas, satellite antennas, radio transmission antennas, power grid transmission system, and even all the radio telescopes being used to explore space. All we are missing is a simple receiver and the simple shift in perception that would allow us to recognize things for what they are.

Art Bell, famous for his Coast to Coast AM radio show in these United States, would many times speak of the charge his radio antenna would pick up and how baffled he was by this problem. He did all sorts of investigations on this matter and theorized in many ways as to what was happening, never realizing, at least publicly, that he was receiving free energy through his antenna and that with a little tweaking he could have turned it into free energy to power his house.

Electric engineers and radio ham operators, are very aware of the need to protect themselves and their equipment from such things as static, noise, or interference. To their perception, free energy is a nuisance that needs suppressed. Yet, if they would allow themselves to see beyond their scope of interest, they would find it easy to actually learn how to receive and amplify this static / noise / interference so as to make it available for everyday use.

I have heard it said in a documentary on Tesla, who actually considered this possibility, that the problem with this idea is that it is not possible to generate enough electricity for industrial applications. To this I say first, so what? Focus on household use. Second, take a look at how cars work.

In generic terms, car engines use the voltage of a battery and by means of a simple canister called a coil, convert this 12V of energy into the thousands of volts needed to create a spark in the spark plug. Therein is a way to amplify the "weak" signal of free energy: use coil principles.

A slight shift in perception is all it takes and the more primitive and simple, and thus inexpensive this system is, the better for us the People.

Faith

012112

To begin my next topic of conversation, I would like to quote once again from Linda's blog:

Substance of ⁵

On a beautiful balmy, cool breeze day !

Thank You Father !

**Now faith is the substance of things hoped for,
the evidence of things not seen.**

- 1769 Oxford King James Bible 'Authorized Version

Perhaps Faith is something more than the physical senses can convey.

Ask to see Faith in The Father Way. See what is revealed this day.

With blue skies, balmy temperatures and cool breeze receiving pure rain !

⁵ <http://bluestarway.com/rosenoelblog/index.php?post/2011/07/27/substance-of>

Oops...

012612

In the entry "Have Faith", I shared what Father Said about Faith early in our journey.

Linda's entries on "substance" and her quote from the Bible regarding Faith being "the substance of things hoped for" (see my last entry), made it clear there is a greater understanding available on this matter, pun intended.

To receive this understanding, I will use the tried and true method developed by Linda in her "Dreams and Days" book. That is to say, I will use dictionary definitions to expand our perception. Remember that many times the definitions contained in a word give us both the problem or distortion that was introduced to our perception, as well as the answer.

Let's first take a look at the word "hope".

hope:

- to desire with expectation of fulfillment
- to wish
- confident expectation

Now, let's take a look at the word "desire" and see what kind of "can of worms" we have just opened.

desire [de- from + sidus, sidere star; with reference to astrology]:

- to wish or long for
- to covet; crave
- sexual appetite; passion; lust

In reading the elaboration found in this dictionary regarding the synonyms for desire we learn that:

- desire expresses ardent feeling often implied with sexual longing and, as applied to sexual longing, it includes the longing for companionship and affection, as well as for sexual satisfaction
- the word "wish" is commonly substituted for "desire" to avoid this implication, but wish is also used of things remote and unattainable
- crave suggests compulsive appetite
- covet is a desire for that which belongs to another

With this definition of "desire" it is not surprising that eastern philosophies have suggested that one must get rid of all desire so as to liberate oneself spiritually. It is also not surprising that western cultures would have great confusion regarding the meaning of faith and how it is to be expressed. As you can see, so much distortion has been introduced to our understanding of desire, that there is little trace of Truth left.

Here is what the dictionary says about faith:

faith:

- confidence or dependence on a person, statement, or thing as trustworthy
- belief without need for certain proof
- belief in God or in testimony as recorded in the Scriptures or other religious writings.

Now let us combine all this together and see what kind of distorted and perhaps unconscious drive / behavior is created by this misrepresentation:

If as the Bible says, faith is the substance of things hoped for and hope is a desire which is defined as a sexual appetite / craving / coveting, then it follows that the greater one's sexual appetites are, the greater one's longing for another is, the greater

one's compulsive appetites are, and the greater one's coveting is, the greater one's belief in god is.

Said differently. To long for another, to want companionship, affection, and sexual satisfaction is a way to give expression to one's faith in god or in the scriptures.

Said differently, the very belief in god or in the scriptures is what gives substance to the longing for another, for sexual appetite, passion, lust, cravings, and coveting.

Said in a more romantic and palatable way, there is someone out there, your other half, your soul mate, awaiting. That one person with whom you may fulfill your passions and need for companionship and with whom you may live happily ever after as you help fulfill "god's command" to populate the earth. This is god's will for you, proof of his existence and love for you.

Oops...

Un-oopsing things

012812

In my last entry, it became apparent that there is great potential for much misunderstanding when it comes to faith, hope, and desire. Let's begin then to untangle things so we can get to the Truth as I understand it at this time, based on what Father has taught and shown Linda and I.

Let's address the word desire first. As said many times and in many ways through this and Linda's blog, Father has explained that we have been given a false desire and that this little "d" desire is different from our True, capital "D" Desire. When we go about seeking fulfillment of this false little "d" desire, rather than our True, capital "D" Desire, we end up of a necessity unfulfilled. Why? Because we are giving substance to something that is unreal and is designed to lead us astray. It is the chasing of virtual carrots... no matter how many one may get, they can never satiate one's hunger.

The definition of the word "desire" as a sexual appetite, longing for companionship and sexual fulfillment, lust, coveting, or craving is simply the definition of this false little "d" desire the unrighteous / unholy have introduced in us. This is why pursuing these activities leave us unfulfilled or empty handed.

To begin to grasp the meaning of capital "D" Desire, we could look at the word "wish", since this word is specifically used when one wishes to remove any connotation of sexuality from the word desire. The problem with using this word, is that "wish" also carries the connotation of something that is remote or unattainable. Thus giving the inference or illusion that our True capital "D" Desire is nothing more than wishful thinking.

So where do we turn? To the root of the word. Desire has its roots in the words "from + star". The star of our solar system is the Sun, and as Father has explained to us, the Sun is a manifestation of His Desire to support our Journey upon the Earth. Thus, our capital "D" Desire carries the characteristics of the Father Which Is in Heaven and is a direct expression of what we came here to do / accomplish with, for, and / or in the

auspices of the Father. Thus, capital "D" Desire is something that brings Joy and Peace, uplifts our Heart and nourishes our Soul, and brings freedom of movement to go and do as needed to receive the Blessings Father would bestow upon us.

Un-oopsing things - continued

012912

Father has explained that when we become dependent on someone / something other than ourselves and our direct Communion with Him, we literally misalign ourselves. Father calls this problem "leaning". Leaning goes hand in hand with this little "d" desire distortion and in a nutshell, it causes one's energy to go toward the person / thing that has been elevated into "godhood" and has "taken" the place of the Father in one's perception.

Thus, when we look at the dictionary and see any definition of faith as being dependence on something or someone else, we know that is a definition of little "f" faith. We are being given a distortion or false testimony.

With this in mind, and with the definition of capital "H" Hope as capital "D" Desire for which we have confident expectation of its fulfillment, we can take another look at the Bible quote referenced by Linda (capital "F" and "H" added by me):

Now Faith is the substance of things Hoped for,
the evidence of things not seen.

That is to say, Faith is substance and evidence.

substance:

- material of which anything is made
- a material object as contrasted with something intangible
- density; body
- material wealth; property

Contrary to worldly perception, Faith is not some intangible concept or lofty self delusional goal relegated to the spiritual or intellectual realms. Instead, Faith is

something very tangible. Faith has density, body and constitutes wealth and property. It is the very elements of which things are made.

To say Faith is the substance of things Hoped for, is to say that Faith is the (raw) material / wealth / property that is or was used to create or give physical form to that which is / was Desired. Faith turns that which is intangible into something tangible. It is the "evidence of things not seen".

Evidence:

- that which serves to prove or disprove something
- an outward indication of the existence or fact of something

The Sun is physical and tangible. It is an outward indication of Father's Desire to Sustain us. It proves the Existence of the Father.

The Earth is physical and tangible. It is an outward indication of Father's Desire to provide us with a Sacred Place where we can receive His Blessings and experience the Bounty and Beauty of Creation. It proves the Existence of the Father.

Fruits, flowers, plants, seeds, nuts, air, water, color, fragrance are physical and tangible. They are an outward indication of Father's Desire to Nourish our Soul and Body in a gentle and beneficial way. They prove the Existence of the Father.

As the saying goes... the proof is in the pudding...

*Think you not the Father Knows
those things you have need of?
He would that you should have
All things both great and small
to make manifest His Will (and Intent) in the world.*

Faith is a readily perceivable, external manifestation of Father's Good Will and Intent to provide all that we need to manifest "His Will (and Intent) in the world."

*Recognize what Faith is not,
replace it with Faith
without condemnation.*

That which proves the benevolence of the Father, automatically disproves the notion that He would bring harm to us in any way.

Any manifestation of darkness, death, decay, and destruction is not an expression of Faith. Therefore it is not real evidence. Instead, it is a forgery of Truth. It is the fraudulent misrepresentation of the Father and of Creation.

Father is asking us to recognize what Faith is not, so we may replace it with Faith.

Have Faith in the man you are.

Not in another or even in the Father, but in the man (or woman) that you are. Us the People, in our very physical bodies upon this physical Earth are evidence of our Divine Nature and Father's Good Will and Intent.

Rather than misdirecting our raw materials, wealth, and property to give substance to fraud, Father is letting us KNow we are to use Faith to give expression to our capital

"D" Desire, which, in its Purest and unadulterated form, is to KNow Creator in our own unique and individual way as we walk upon Father's Garden on Earth.

Can't quite see the reality of Faith? The evidence of things not seen?

*Your lesson in this,
is to perceive not with the eyes of the world,
but to Know that the Father is Sovereign
in all matters great and small.*

When doubt comes creeping in: have Faith.

It is time to rise from the death and destruction.

Hold fast to your Faith ⁶.

⁶ In other words, stop giving it away.

What made the difference?

020112

Many years ago, I watched a movie on TV which depicted the last days of the fascist regime in Europe. One thing that always intrigued me about this movie was the change that occurred overnight in the behavior of People. One day you have them all fearful of the "system", careful of what they say and do lest they be taken by the purveyors of tyranny. The next day, it is the purveyors of tyranny that are running away in fear as People begin to round them up and hold them accountable for what they have done.

What made the difference? What caused this "power" transfer?

Long awaited answer

020312

What made the difference? Faith.

Faith you say? Yes, Faith I say.

First you have capital "F" Faith which is to be placed in one Self, turned into little "f" faith which is directed toward someone else. In this case government. The raw material / wealth / property that was meant to give physical expression to Father's Will for the People, is now being misdirected to give substance to the unrighteous / unholy and their dreams of insanity.

This very misdirection of substance is what substantiates and powers the forgery the unrighteous / unholy put upon us the People. The apparent power the unrighteous / unholy have is nothing else, nothing more than People's own Power. This is a key concept / understanding.

This key concept is well understood in martial arts: he who takes the first move loses. Why? Because in martial arts, the very energy used for the attack is the energy that is used to defeat the opponent. Transferring our Faith to someone else is equivalent to taking the first move. Once we have done it, we have already lost. The more we struggle, the more energy we give away, the greater our defeat. This is why, to quote the Borg in StarTrek, "resistance is futile".

How is the outcome changed once the mistake is made? We stop and do it differently. We reclaim our Faith. Now, substance is no longer being given away. There is no energy that can be used against us.

This is what made the difference. One day the People's misdirected faith was giving substance to tyranny. The next, People woke up and reclaimed their Faith. Without substance, tyranny crumbled and its purveyors became the powerless entities they really are.

Unfortunately for us, People back then only reclaimed their Faith momentarily. Rather than taking this opportunity to establish their sovereignty, they were once again tricked into slowly but surely transferring their Faith back into the very infrastructure that was used to enslave them in the first place.

Us the People, in this time and space continuum, must learn to do it differently. Right here, right now. Rather than leaning, depending, squandering, resisting, fighting, waring, opposing, or running away, we Wise up.

It is time for us People to:

"Hold fast to [our] Faith".

Faith and digestion?

020412

The exploration on Faith has been launched from a Bible quote which says:

Now Faith is the substance of things Hoped for,
the evidence of things not seen

Perhaps now, with the knowledge we have been acquiring, we could refine this understanding and re-write it as follows:

- Current Sea is the substance of things Hoped for. The physical manifestation of things Hoped for is the evidence of things unseen. Faith is the process "from promise to fruition" that allows this to happen.

Perhaps in a rather rough way, we could compare this to the more tangible process of digestion:

- Food is the substance that nourishes and sustains. The physical manifestation of this nourishment expresses as strength, robustness, and health of the body. This manifestation is the evidence of things unseen. Digestion is the process "from eating to assimilation" that allows this to happen.

Father has Said that "Faith is a fragile thing". So too is digestion. Digestion can be upset by many things: stress, fear, danger, lack of food, malfunction of the many organs involved in digestion, and so on.

Perhaps so too, is Faith upset.

Could Faith be as automatic as digestion is when working Properly?

If you have minimal food to eat, no matter how good your digestion, there is not enough nourishment to keep your body strong and healthy. If you receive minimal Current Sea, no matter how good your Faith, there is not enough substance to give physical expression to that which you Hope for / is Father's Good Will for you.

If the food you eat feeds the parasites in you, what is left for you? Their fecal waste. If the Current Sea you receive feeds others, what is left for you?

Could the many misconceptions we have about food / digestion apply to Current Sea / Faith?

- spiritual People nourish themselves poorly
- fasting is healthy
- if you eat too much you will be fat
- rich food is unhealthy
- empty food is healthy
- you need to restrict your diet
- you need money to buy food
- you need work to get money
- those who are unwilling to work deserve famine
- food comes from the supermarket
- you need to till the land and destroy the forests to grow food
- you need to poison the land and crops with chemicals to grow food
- pests can take / destroy your food / crops at will
- weather can destroy your food / crops at will
- thieves can take your crops at will
- government must regulate food and can take it away at will
- good People donate food / give it away / are willing to go hungry to let others have some food
- you need to kill to have the food you need
- you need chemicals to aid your digestion
- there is not enough food for everyone to eat to satiation each and every day
- it is a sign of "status" to buy your food instead of receiving it directly from your garden
- the food you grow must be used to feed others

If poisoned / altered food destroys our body, what does poisoned / altered current sea do to us?

Just some food for contemplation.

The substance of

020712

In my last entry I proposed that:

Current Sea is the substance of things Hoped for.

If Current Sea is substance and substance is:

- material of which anything is made
- material object as contrasted with something intangible
- material wealth; property

Then it follows that the Current Sea is the raw material of which anything is made. It also follows real material wealth and property is in the Current Sea.

What is Current Sea? Current Sea is the tangible manifestation of Father's Desire to nourish and sustain Life on Earth. It is composed of the energy and particles that are carried in the solar wind.

As I have said before, money may not grow on trees, but Wealth and Abundance sure rain down each and every day from the "Heavens".

We are in the process of reawakening to the significance of this Knowledge.

Inner wealth, and therefore "one's worth" is directly related to a person's capacity to receive Current Sea. The more developed one's capacity to receive Current Sea and to Properly utilize it is ⁸, the greater one's inner resources / reserves are. One feels strong and a perception of Abundance prevails - even if one chooses to minimize how much of this inner wealth is transformed into physical manifestation.

At the same time, one whose capacity to receive Current Sea is diminished and misdirected, lives in poverty regardless of worldly appearances to the contrary. Their opulence is not a result of their "inner wealth" but of their capacity to steal and feed off others. Because they are not being nourished and sustained by the Current Sea, they live in famine and insatiable hunger.

⁸ That is to say, to not squander it or let it be split asunder into lust, greed, hatred, anger, fear, stress, self sacrifice, donation, and so on.

A Simple Answer

Linda and I, in conjunction with Mr., have put together some interesting information which became available after posting Mr.'s entry "A Different Way."

You can access this file by clicking [here](#) or by clicking on "A Simple Answer" on the right menu column.

A gravy entry...

021712

Today's entry is a "gravy entry" as Linda Light-Heartedly observed because I simply get to post her entry for today. I'm very glad indeed to have provided the technical assistance for recording this new audio file and thus facilitate Linda's Spiritual Progression. It is but one more way Desire takes physical form through Faith (and action).

Radiant Powerful Woman
By Linda Diane Mead

With lilac lavender dreams of balmy days of SunShine !

Martin and I went back to our archives of 2004 and retrieved information Father had begun providing for me on what a Woman Warrior is. He provided a contemplation for me to discover myself. A Vision of what this is. My idea of a warrior at that time was based on a lifetime of indoctrination into deception. The idea of a feminine warrior was totally distressing to me.

In the months it took to begin unfolding, a dramatic shift in my perception took place. However the underlined deception still held a small space.

It was in the last week as I listened to Clif High being interviewed by Suzanne Toro, with Clif's thoughts on warrior vs. shaman that I recognized a need to return to Father's Teaching and continue my understanding of a Radiant Powerful Woman. Father has called this Vision of the feminine Warrior, Iconian. I have yet to understand the greater portend of this terminology.

We are sharing the introduction to this great learning in a second audio contemplation which you will find in the left hand column of this blog titled "Radiant Powerful Woman". May Truth prevail and those People who seek Truth and Liberty begin the journey of receiving that which once they sought.

Physical things are the evidence of things unseen, proof of the existence of Faith, Desire, and Current Sea. Some time ago, when hearing my entries on Faith, Linda made the observation that in this explanation she can see the relationship between us, People, and the Current Sea: "While we can't see the Current Sea, it is out of these particles that substance is given to our Being. It is also out of this Abundance that our earthly experience is formed. Current sea is what forms into crystals, metals, water, gemstones, earth, plants, flowers, animals, and human bodies. These are all evidence of Father's Presence."

What we see in a Natural environment on Earth is the coming together of the physical manifestation of Earth's Desire, Father's Desire, People's Desire, and other benevolent Beings' Desire, all of which transform the Current Sea into tangible expressions that provide the Opportunity to increase our capacity to In-Joy and experience Creation through individual Creative Expression.

When you KNow Truth, the Evidence of Father's Presence and Good Will for us is readily recognized all around us.

When we let the unrighteous / unholy pilfer, destroy, and consume the physical manifestation of Father's Good Will for us, we are letting them destroy the very Evidence of His Existence and His Good Will for us. When we let the unrighteous / unholy pilfer, destroy, and consume the tangible evidence of our inner wealth, we are letting them destroy the very Evidence of our Faith.

It is not a coincidence that the more of the Earth's resources are consumed and destroyed, the more we separate ourselves from Nature, and the more we confine ourselves to cities and structures built out of thievery, death, and destruction, the more distant, intangible, and unreal Father appears to our senses. Similarly, the less tangible our Faith becomes. All that remains is an intellectual belief / idea of what once was a very Real Experience.

To go about acquiring wealth without first filling our inner resources with Current Sea, is like trying to strengthen the body by using silicone implants to simulate muscle mass.

The body may look strong, but there is no real strength.

One could go adding silicone implants to his body from now 'til eternity, and still there would be no real strength gained (except perhaps from having to carry all that extra weight).

This is a futile notion and attempt. It is self defeating and detrimental to one's well being.

To go about building our wealth by working for money or pilfering the resources of the Earth / other People, is equivalent to using silicone implants to "strengthen" the body.

When Properly received, silicone in and of itself is, as Father has explained to us, a very useful element that supports Right and Proper Function of the brain. This is evidence of Father's Good Will to nourish and sustain us. However, when improperly received, as for example in the form of silicone implants, it becomes toxic to human health (as many People have ascertained by own experience). This is evidence of unrighteous - unholy tampering against Creation.

When Properly received, wealth and resources are, as Father has explained to us, part and parcel of a Spiritual Life well lived. This is evidence of Father's Good Will to nourish and sustain us. However, when improperly received, as for example in the form of industrial products which are produced from that which is pilfered from the Earth and People, they become toxic to our lives. This is evidence of unrighteous - unholy tampering against Creation.

It is how we go about it that makes the difference.

Another way to look at this is taking a look at the difference between buying tomatoes in a supermarket vs. growing your own tomatoes.

When someone buys tomatoes from a supermarket, that person will always run out of tomatoes, and will always have to work more to get more money to buy more tomatoes. As a matter of fact, because of inflation, with every passing year, it will take more money to get the same amount of tomatoes... until the day in which the prices of tomatoes will increase faster than his income and he will be forced to reduce the amount of tomatoes he can receive. This is evidence of the ill will the unrighteous - unholy have for us and their fraud against Creation.

In contradistinction to this, when someone grows his own tomatoes, he may start with one seed. When this seed turns into a fruit bearing plant, he will have many tomatoes, one of which he will set aside for seed. Now he has lots of seeds for next year. When next year arrives, he plants many tomato seeds from which he will receive an exuberant amount of tomatoes. Now, not only can he fulfill his every day need for tomatoes, but he can preserve some for the winter and save several tomatoes for seed too. The following year, he plants even more seeds and his harvest of tomatoes is so large that he has some Abundance left after taking care of all his needs, including canning/ drying and seed saving.

In excess of Abundance, he can now comfortably trade with others, without "sacrificing" his own well being or putting others first. This is evidence of Father's Good Will and Intent for us to Live in Abundance and Sovereign Expression.

To work for money so that we can buy things made of "Current Sea" and thus surround ourselves with "Current Sea" is like going to the supermarket to buy tomatoes or strengthening our bodies with silicone implants. There is never enough. It will always take ever increasing amounts of money and work, and in the end, our health and sovereignty is compromised.

To receive the Current Sea directly from the Father is like planting tomato seeds. Within a short period of wise utilization, tending, and conservation... Abundance overflows and our sovereignty is expanded.

To squander Current Sea or let it be taken from us is like trashing away all the tomato seeds or letting them be stolen. This forces us into the mercantile game of poverty indebtedness where we slave for money to buy tomatoes or even tomato seeds.

To Properly Utilize the Current Sea and "hold fast to it" is like saving tomato seeds. This gives us the raw material that will fruitfully nourish and sustain us.

Where does one start if one has no tomato seed and is perhaps already working for money? Perhaps one has a friend who grows his own tomatoes and could share some seed. Perhaps one may have to purchase one tomato to begin a Different Way. In either case, receiving or purchasing just one heirloom tomato from someone who has already started doing it differently, to the best of his ability, "can yield an abundance that exponentially multiplies itself". (When there is a lack of wild seeds, heirloom are as close as we can get to the original intent of the Father for us.)

This is in contradistinction to obtaining hybrid or gmo tomatoes from any source, for this represents seed that has been deviated from Father's Original Intent for us. Therefore, "the quality and nourishment of what might be reproduced is diminished".

One way brings us closer to Father's Good Will and Intent to nourish and sustain us. The other brings us closer to the unrighteous - unholy way to compromise our well being and interfere with Father's Good Will for us.

It is how we go about it, that makes all the difference.

Desire gives substance to our reality. This is why Desire is such an important thing.

When we make someone else's desire ours, then we give substance in our life to that which someone else wants, this is done at our expense and at the cost of what would be Rightfully ours if we were manifesting our True Desire. This empties our resources and leaves us empty handed... dissatisfied with life and in constant hunger we live in spiritual poverty and destitution.⁹

Father has shared the following Wisdom that is very appropriate to the KNowledge we have been reawakening to:

*From within your Heartfelt Desire
comes a deep yearning / longing
for Father Which Is in Heaven
to serve your Endeavor.
Seek instead / always
to let your Endeavor
Serve that which Is in Heaven.*

"Spiritual teachings" such as "The Secret" would have us believe Universe / Father is a "genie" at our disposal, ready to fulfill whatever distorted desire we have. This mistaken perception is compounded by our misunderstanding of what Father's Good Will and Intent to Nourish and Sustain us Truly means.

Father corrects this misunderstanding by letting us Know we are to "Serve that which Is in Heaven". Not Him, not another, but but that which Is in Heaven.

Father further Clarified that this is to say, how do I Serve Divine Desire? Not how does Divine Desire serve human desire. How do I manifest Divine Will and Intent? Not how does the Divine serve my heartfelt desire.

How do I Know moment by moment how to implement Divine Plan? Not how will Father implement my plan. With a little bit of contemplation, you may come to realize that this is very Freeing.

All Good Measure / Abundance is yours to do so.

That which Is in Heaven

030512

*Seek instead / always
to let your Endeavor
Serve that which Is in Heaven.*

As explained by Father, "Heaven of [our] Desire is Right and Proper Function of [our] Divine Expression, in a Kingly, Right and Proper, straightforward manner."

We are to do this in a Kingly, Right and Proper, and straightforward manner.

Father explained to us that He Speaks of capital "K" Kingly. This is different than wanton ¹⁰ desire as manifested by the unrighteous / unholy who have falsely crowned themselves as "kings" upon this Earth and laid false claim to all Father has Given People and Earth.

Instead, Kingly is a reference to our Regal Nature as Divine Children whose Birthright and Inheritance is the Abundance of Father's Kingdom. We are neither servants, nor subservient to others / each other.

Right and Proper is to express our Divine Expression with Wisdom and Respect and in a manner that is consistent with Universal Law, Universal Truth, and Universal Love.

Straightforward manner is to be Honest and frank, without deviating "*on our Path to [our] Appointed Goal*".

¹⁰ lustful, unjust, malicious, extravagant, unrestrained, rebellious.

More Correctly

030712

I have been updating our BlueStarWay website and in so doing noticed that many of the contemplations we have made available under BlueStarWay Creations are quite applicable to this topic of Faith and the shift of perception that is required to restore ourSelves to Truth in Light of the new Knowledge we have been re-awakening to.

So here is the first one:

More correctly

*More correctly you would
mentally contemplate supply, gently,
not expecting hardship in your Endeavor.
Speaking, writing inspirationally of your
forward progression.*

*Seek the Father's Kingdom.
Let go of failure.*

*Solidify Heartfelt Desire to nourish and sustain
your Endeavor by Divine Means.*

*Align Heartfelt Desire with Divine Will and Intent
the Radiant Energy to which you aspire.*

*It is not in the way of the world
to support or sustain your Endeavor.
It is, however, your Father's Good Will
to engage the material means by which
your Endeavor takes form and shape.*

*It is your Father's Good Pleasure
to give you the Kingdom
includes the food on your table.*

All is Abundantly yours who Honor and Serve Him.

*Ask not what you can or cannot have
ask instead what is His Good Pleasure
to place before you.*

Changes have begun

030912

From Linda's RoseNoel blog:

Changes have begun ¹¹

With balmy days and aurora light nights !

Yesterday, we spoke with Father regarding the solar flare activity and potential for devastating effects, since Father had advised us earlier in the week to stay in, and bypass travel and other plans on Thursday and Friday. When we went to Him very early Thursday for refinement of Right and Proper activity or non activity, we had just learned of the arrival of the X-flare. While in the past we have made references to being outdoors to receive the extra Abundance that was being made available through the solar flares, that is no longer the case. Father clearly indicated to us: it has begun.

For many years we have been aware of the potential for Earth changes: earth changing events that were initiated not by the unrighteous – unholy but by Authorization of Father Which Is in Heaven. We have joined many who have been very vocal in expressing the need for preparation. The unrighteous – unholy initiated events, while catastrophic, are much less significant than what Father may eventually allow in the Earth's Progression for her Survival and the Survival of those who end unrighteous – unholy activity. I have personally felt extreme conflict and sorrow over participation in Father's Plan which will remove the unrighteous - unholy from the experience of the Earth, for there are People who have made choices to end their Earthly experience in the service of the unrighteous - unholy and await renewed life experience through enslavement of their Souls in the artificial "heaven" of the unrighteous - unholy. Those People have often made this choice through the deceptions of the unrighteous / unholy, while others of the People have chosen the path of the

¹¹ <http://bluestarway.com/rosenoelblog/index.php?post/2012/03/09/Changes-have-begun>

unrighteous - unholy through lust / greed. Either way, those who are not seeking Truth / seeking the Divine Expression of Love, Peace, Truth, Life, Joy, and so forth upon the Earth will leave the experience of the Earth for whatever experience awaits them, thus being provided an opportunity to see things a "Different Way".

We have, with the utmost Faith, Hope, and effort, sought Truth and the ability to Live Harmoniously with the Truth Father has revealed. We have earnestly sought Life Expression of a Righteous and Holy fashion. This journey has not included "success" in the mercantile game. It has however sustained us and provided for us in surprising ways. At this time, I have no expectation of poofing to the experience of this world on the energetic level of Truth, for Father has Said that I must bring Truth into the world rather than escaping to the world in (of) Truth.

It is with extreme dedication we continue our journey with the goal of Living a Life of Truth in the midst of the deception, for as long as required by Father Which Is in Heaven. It is further our utmost Desire to Progress to the new world of Righteous and Holy Expression.

Father has supported our Hope for and Faith in the potential of creating the "New Heaven" and "New Earth" right where we are. This place would have no experience of (and Hopefully no memory of) the "existence" of unrighteous – unholy upon the Earth.

Martin has posted in his BlueStar blog several excerpts from our Heliotropos / Showay book (self published in about 2003) with reference to our Sun's "point of departure" and resulting Earth changes (Read his Heliotropos (Toward the Sun) series). A few years ago, Father indicated that the reason Denali, Yellowstone, and New Madrid did not show activity at the designated time, was because a sufficient number of People were making changes and preparing, so as to provide additional Grace to the People. The dates in Showay are indication of the Grace the People have received. The current upsurge in activity in the Philippines is the indication Father Gave to us when I inquired about the Denali, Yellowstone, New Madrid potential. Devastation of the Philippines will be

followed by devastation in China. We have recorded this information in our "A Changing Horizon" short story. If one considers Tibet and the Himalayan area part of China (which I do not), the devastation is building throughout the land holdings of the unrighteous – unholy who dictate to China. The upsurge in Philippine devastation, Chinese devastation, quake activity in the central portion of this land, and current solar activity are clear indication that while the unrighteous – unholy have their own agenda, the Father's Plan has begun. There are many things at this time that we perceive as potential. However, these things are being withheld or undisclosed by Father at this time.

Suffice it to say, the changes have begun.

(Thank you Martin for your assistance in writing and posting this entry.)

On a SunShiny balmy Day of infinite beauty.

Seek the Kingdom

031212

As explained by Father and mentioned before:

*The Kingdom is your Desire for Heaven made manifest.
Heaven of your Desire is Right and Proper Function of your Divine Expression
in a Kingly, Right and Proper, straightforward manner.*

To seek Father's Kingdom includes restoration of our Desires to Right and Proper Function. As we have been learning, this is part and parcel of Right and Proper manifestation of our Faith.

Here is another pertinent contemplation from our BlueStarWay Creations site:

Seek the Kingdom

*To see, say, secure
Right and Proper Desire of your Prayer
requires but Quiet Time during which
your Heart's Desire lingers not on
sorrow and pain of your Endeavor,
but seeks instead a quiet interval of rest
in Your Father's Kingdom.*

It begins in a slight shift of your Endeavor.

*Refuse to follow or obey
and stop surrendering your Power
to all previously known mortal endeavor
in exchange for higher mortal endeavor.*

*Seek Instead your Father's Kingdom
and all Good Will is yours.*

Mortal endeavor is what we know as everyday life. Higher mortal endeavor is rising above the norm, yet still doing things within the framework of deception. Death awaits both ¹².

We are not learning to do things differently to simply do better within the deception and all its false teachings of what it means to be a "good and successful human being".

We are to seek Father's Kingdom where Life awaits.

¹² Refer to "Another Step Toward Truth" for a more detailed explanation of this. Published on February 23, 2011 and available on BlueStarBlog Book

Time to prepare - 1

031312

Father has once again reaffirmed the time is Now to prepare for upcoming solar events.

His main suggestion in the past days has been to begin construction of permanent canopies to allow People and / or animals to be outdoors without being exposed to direct radiation. That is to say, there will be times not even pets should be exposed to direct sunlight.

Preparation also includes being ready for power outages. Storage of food, water, cooking fuel, and alternative ways for night lights are all a good idea. If you are going into winter, you should also be thinking about ways to stay warm if electricity fails.

Prepare with the Hope and expectation that a Different Way is still possible (read A Simple Answer).

Time to prepare - 2

031512

It is my projection that the need for canopies will extend to the garden as well, where sunscreens may be needed to protect plants from "sunburns". A very expedient and cost effective way to accomplish this is to plant paulownia trees. Father has confirmed the suitability and desirability of planting these trees. They grow extremely fast and have an open canopy that allows filtered light through. This tree is currently being used in Asia as a way to recover land and provide shelter for other cultivated plants.

Another main advantage of the paulownia tree is that it is resistant to combustion and will re-sprout with full vigor were it to burn down or be torn down by high winds. This is of utmost importance to quickly repopulate land with trees should solar activity cause wild fires or high winds. People who classify this tree as invasive miss the point due to lack of vision and recognition of how solar activity will affect us upon Earth.

There are many sources on the internet, including internet auction sites, that sell paulownia trees or seeds. I would stay clear from any cultivars. Alternatively, you can learn to identify these trees and see if they already grow around your neighborhood. It is probably too late now to gather last year's seeds, but you never know. Take a look just to make sure. If no seeds are available, you could obtain a cutting for drafting. Always ask for permission when entering private property.

Self defeating

031712

To seek Spiritual Progression with the idea that one must do so in poverty and lack is, as we have been learning, self defeating. You can't do both.

Right and Proper Spiritual Progression restores our full flow of Current Sea because, of a necessity, Right and Proper Spiritual Progression realigns our Desires and requires us to learn how to:

1. stop squandering the Current Sea we receive, and
2. stop allowing it to be taken from us before we receive it.

This correction restores and increases our Inner Wealth and therefore the Abundance of our external environment.

When we seek to Progress while retaining the false notion of "how noble it is to live in poverty", we unconsciously sabotage ourselves so as to retain malfunction of our Being and thus remain in spiritual destitution. Otherwise, we would not be able to live in poverty.

One or the other

031812

Right and Proper Spiritual Progression restores us to the Truth of Who we Are and therefore to the Abundance of Father's Kingdom.

Unwillingness to Live in the Abundance of Father's Kingdom keeps us from the very Spiritual Progression we seek.

True Wealth

031912

To choose Father's Kingdom is to choose True Wealth.

You can't have one without the other.

True Wealth - more

032012

Inner Wealth, in the most literal sense, is True Wealth.

When we are in full reception of the Current Sea and our inner resources are filled, we then have "the substance of things Hoped for and the evidence of things unseen".

Just as

032112

Just as physical / tangible Abundance is an external manifestation / expression of our Inner Wealth and Faith...

... so too physical / tangible lack is evidence of inner poverty and spiritual destitution.

Before it can happen

032212

Because physical / tangible Abundance is an external manifestation / expression of our Inner Wealth and Faith, before the unrighteous / unholy can thief it, they have to trick us into allowing them to destroy / steal / squander our inner Wealth and Faith or trick us into simply giving our Abundance / resources / Current Sea to them.

Hence their relentless efforts to demoralize, dis-empower, and shame us, make us think we are worthless, bring sickness and malfunction to us, trick us into leaning, and get us to accept there is nothing we can do about it, because after all, they claim to be our "gods" / superior / masters.

School, religion, mercantile game, debt, rules and regulations, wars, movies, books, music, and the news are all but a means to accomplish this trickery. Just listen to the words / see the action and you will recognize this as a self evident fact.
